23. Point of View

Kids are a very important part of protecting the environment! Kids can do small things that make a big difference. Kids can build bird feeders, pick up litter, and ask their parents not to use harmful chemicals in their yards. Kids can save energy by turning off lights and using bicycles instead of driving in a car. They can recycle and think carefully before they waste paper. Every… something to make the world a better place… get started right now!

How do you know?

17. Point of View

Long ago, people built stone towers to study the sky more closely. We have come a long way since then. Today, scientists are planning a pretty thrilling project! Scientists are working on a plan that could take people into space for a weekend vacation using giant space stations. The space stations use fake gravity to make visitors more comfortable in space. These kinds of space stations could even be used as hotels for tourists.

What does the author think about this project?

Do you agree or disagree?

Point of View

1. Point of View

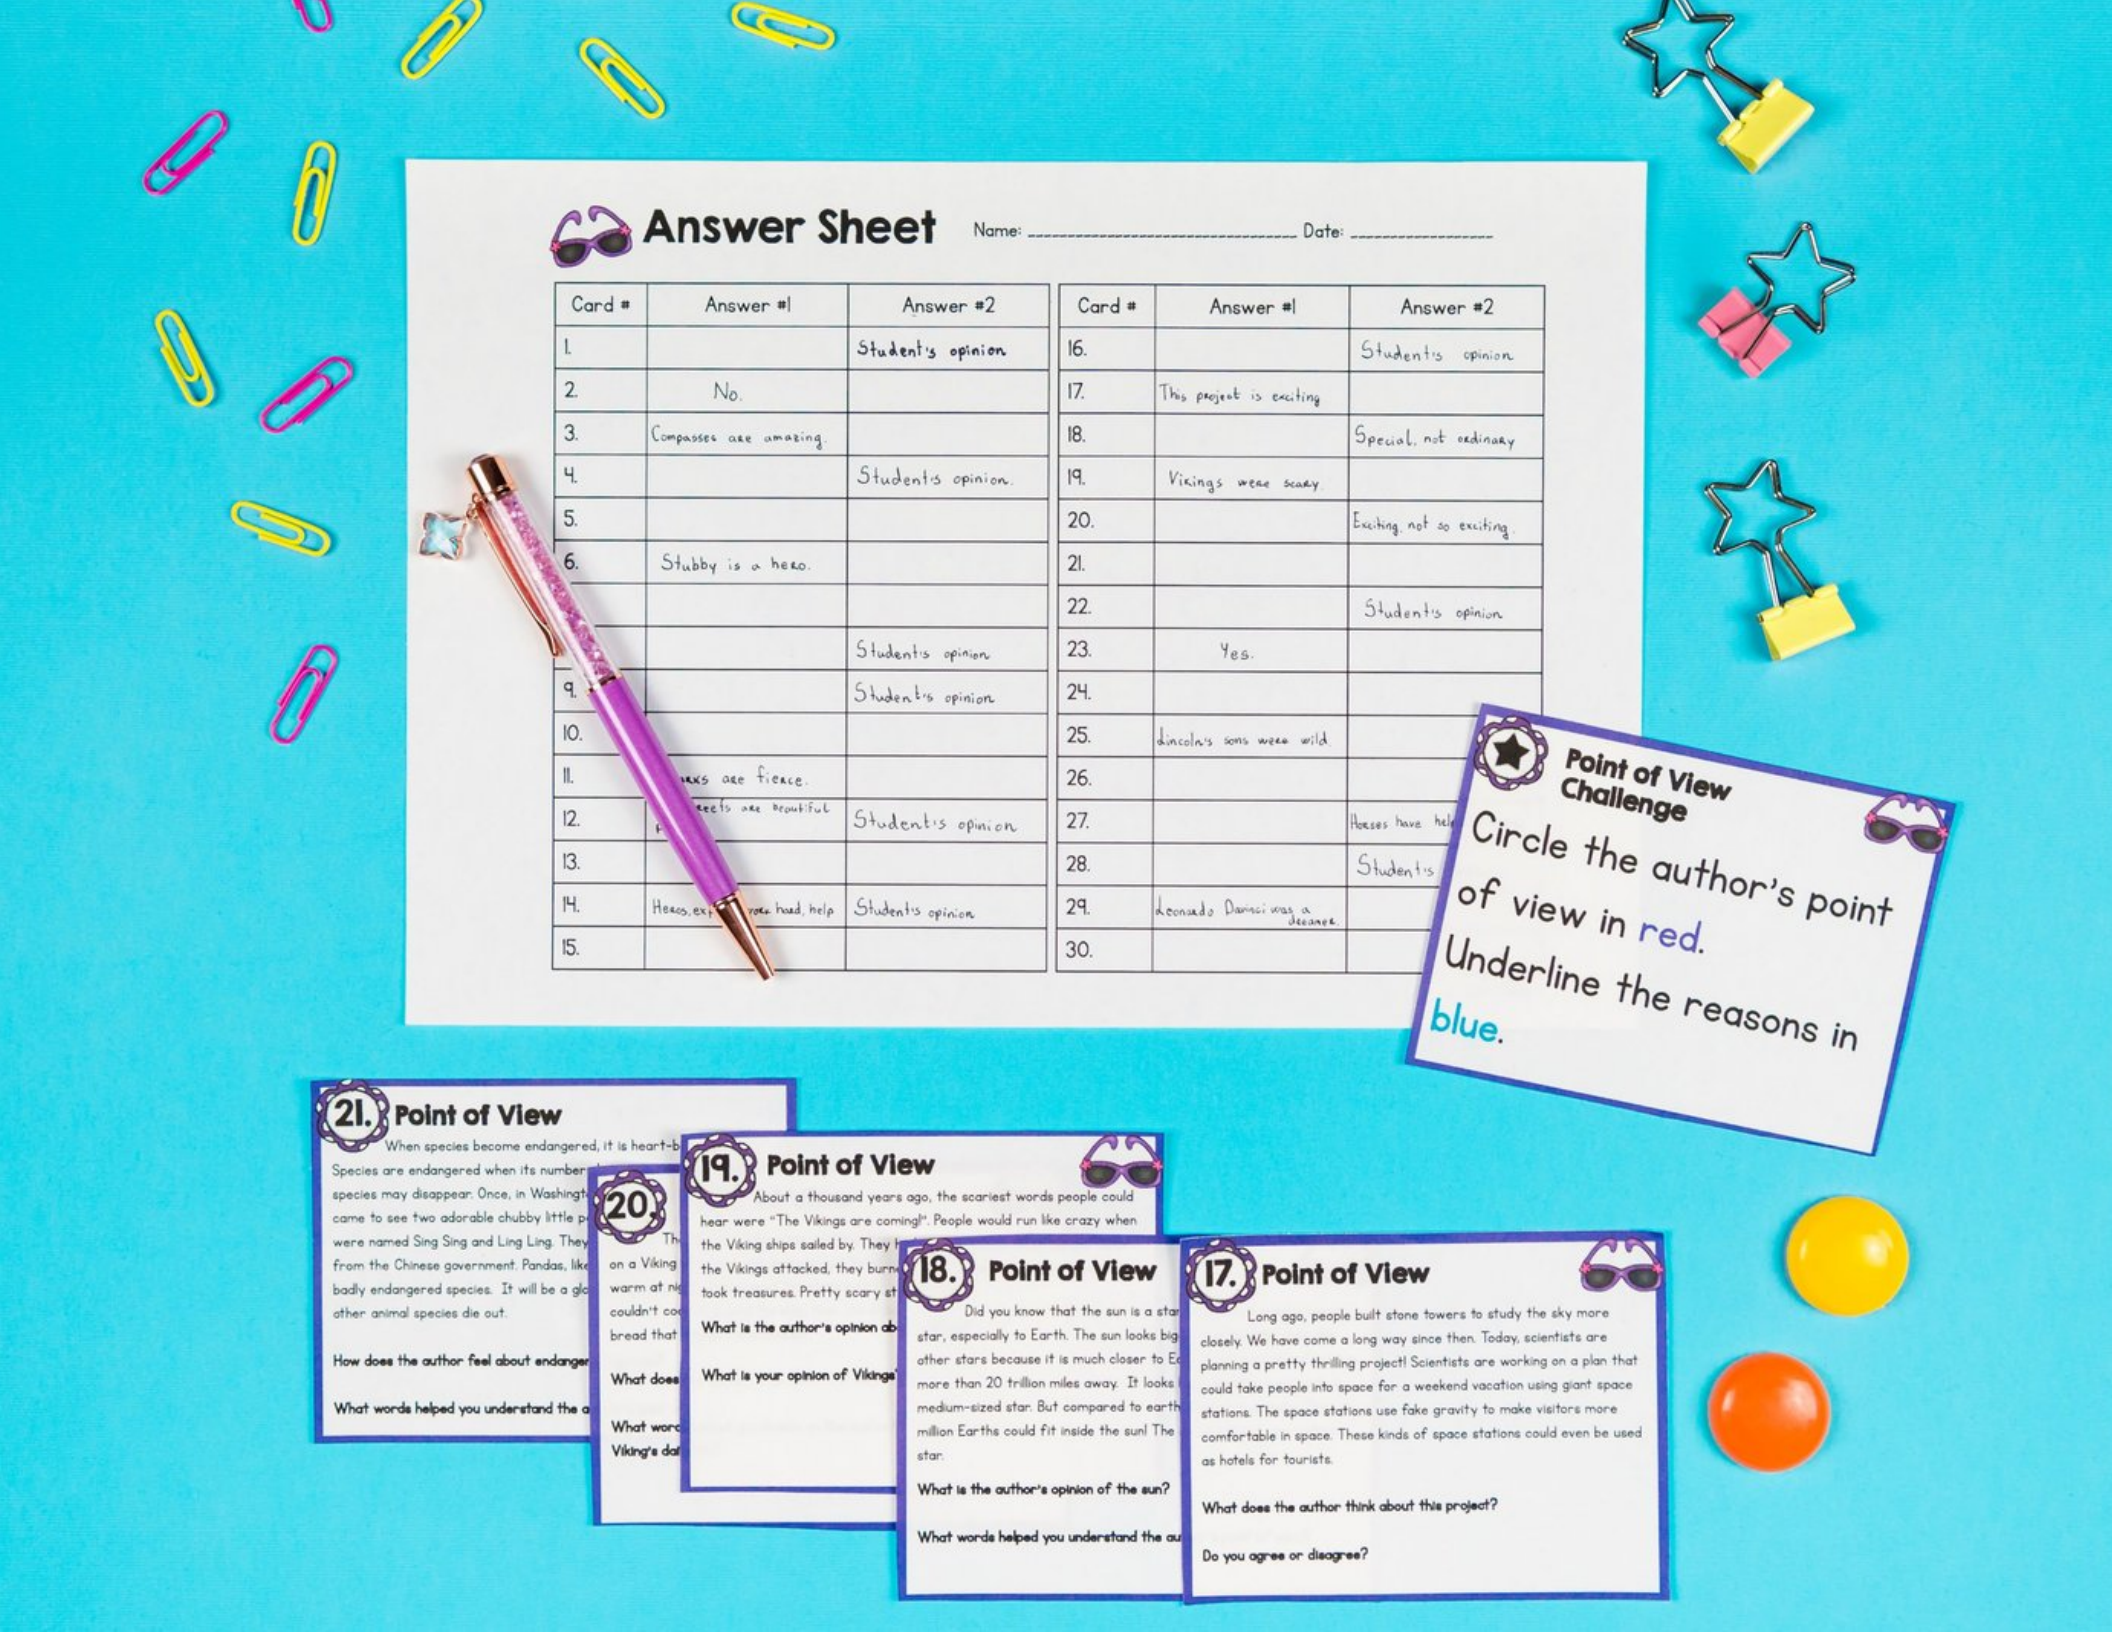

As long as there have been ships sailing the sea, there have been pirates. The most famous pirates lived over 200 years ago! Pirates did not have good character. Pirates were thieves. They attacked ships on the water and towns along the seacoast. They did not obey laws while looking for treasure. They would even sing songs about their bad deeds! Even though they made poor choices, they lived exciting lives.

What is the author's opinion of pirates?

Do you agree with the author's point of view? Why or why not?

20. Point of View
The life of a Viking was exciting! However, parts of daily life on a Viking ship were not so exciting. Vikings used blankets to stay warm at night. Sailors used the ship's sails like a big tent. When they couldn't cook on board the ship, they ate dried fish, fruit, and hard bread that tasted like a cracker.

Ways to Use Task Cards

1. **Centers**
2. **Scoot:** Pass out one card for each student. Set a timer and say, "scoot!" when the timer goes off. Students move seats to the next card. They continue to rotate until they are back at their original seat.
3. **Scavenger Hunt:** Hide cards around the room. Students search for cards and answer them.
4. **Jenga:** Number Jenga blocks. Students stack the blocks, then take turns pulling blocks. Students answer the corresponding number card.
5. **Whole class practice:** Teacher displays card on the projector. Students answer on mini white boards.
6. **Exit Tickets:** Give each student a task card at the end of the lesson. Have them answer on a sticky note.

1. Point of View

As long as there have been ships sailing the sea, there have been pirates. The most famous pirates lived over 200 years ago! Pirates did not have good character. Pirates were thieves. They attacked ships on the water and towns along the seacoast. They did not obey laws while looking for treasure. They would even sing songs about their bad deeds! Even though they made poor choices, they lived exciting lives.

What is the author's opinion of pirates?

Do you agree with the author's point of view? Why or why not?

2. Point of View

Pirates are known for their exciting lives. But the truth is that most real-life pirates of long ago led difficult lives. While they searched for treasure, they spent long boring days on the water. After a while, they only had rotten food left to eat. Sometimes, they got sick while out at sea, and there were no doctors aboard. Many pirates died in sea battles and shipwrecks. Because of their bad deeds, the pirates lived in fear of being caught and punished.

Do you think the author would want to be a pirate?

What words or sentences help you know?

3. Point of View

How did pirates find their way around the ocean? The answer is with a very helpful tool. The ancient Chinese invented something amazing, the compass. A compass is one of the most useful tools to help find a way from one place to another. A compass helped pirates figure out where they were going. Until the end of the 1400s, pirates mostly roamed the seas near their homes. But after 1492, with the help of a compass, pirates discovered a whole new world. The legends we read about today are thanks to the compass. What a cool tool!

What does the author think about compasses?

4. Point of View

Long ago, China was attacked over and over. Rulers built walls to keep the enemy out. One leader wanted a very long wall. He wanted the wall to reach all the way across the Chinese border. The wall would have to go over mountains, through deserts, swamps, and forests. The wall took about 12 years to finish, but the Chinese did not give up. The Chinse showed great grit. Finally, in the 1570s, the Great Wall of China was finished! It stretched across the whole border.

What does the author think of the people who built the Great Wall?
