COMPARE NUMBERS

Greater Than & Less Than

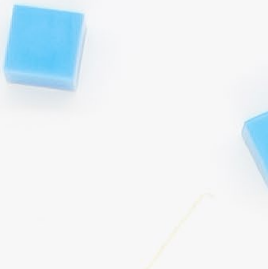

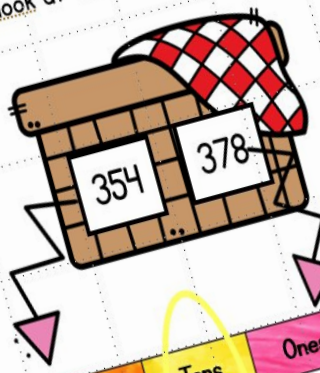

2nd Grade

Digital Lesson & Printable Recording Sheet

Greater Than and Less Than

You can use place value to help figure out which number is greater. Take a look at this example.

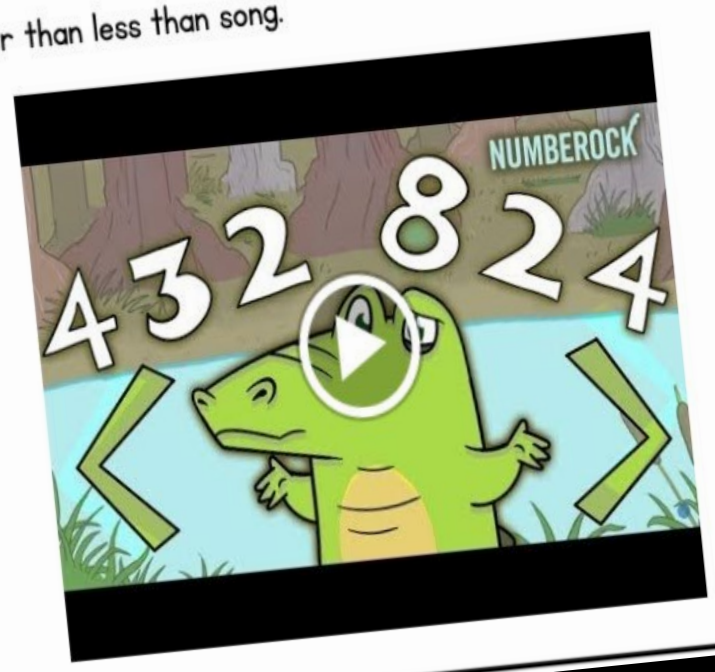

Hundreds	Tens	Ones
3	5	4
3	7	8

Line up the numbers on the place value chart. Look at the numbers in the hundreds place first and choose the bigger number. If they are the same, move on to the tens place. Choose the bigger number.

Let's Sing!

Watch the greater than less than song.

Greater Than and Less Than

Drag and drop the Ali the Alligator symbol to complete the inequalities. Then drag and drop the words you would say when reading the inequality out loud.

1.	945		234	945	IS GREATER THAN 234
2.	289		289	289	IS EQUAL TO 549
3.	418		427	418	427
4.	782		789	782	789
5.	624		427	624	427
6.	187		183	187	183
7.	428		428	428	356

Greater Than Less Than Problems

Read the problem. Line up the numbers to compare each digit in the problem. Write the inequality to show which number is greater than or less than.

In the 4th grade election, Sarah received 231 votes and Maleek received 346 votes. Use an inequality to show who received the greater number of votes and won the election.
