Original Videos to introduce and reinforce topics.

Federal

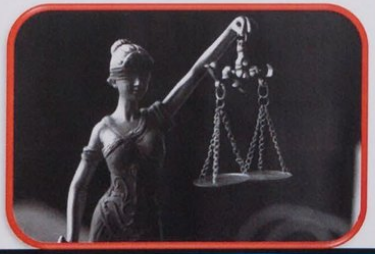

Government

State

Law

Federal Laws

Federal laws are laws that are the same for everyone living in the United States. Both branches of Congress must pass federal laws. These laws include:

- Immigration law
- Bankruptcy law
- Social Security and Supplemental Security Income laws
- Federal anti-discrimination and civil rights laws
- Patent and copyright laws
- Federal criminal laws
- Interstate Commerce

State Government

All 50 states have their own system of laws. They also have their own courts. State laws are put into place by state legislature and signed by the governor. These are some laws that vary depending on the state:

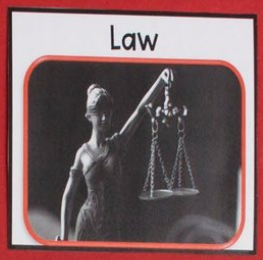

- Criminal matters
- Family matters
- Welfare, public assistance, or Medicaid matters
- Wills, inheritances, and estates
- Real estate and other property
- Business contracts
- Personal injuries
- Workers compensation for injuries at work

Local Government

Local governments include counties or cities and towns. In the local government, mayors, city councils, and other governing bodies are elected by the people. They pass laws that directly impact the local community including:

- Public health and safety
- Parking

Quiz

Fill in the blanks with the words from the word bank. Some words may be used more than once.

federal laws state government

The government is a group of people that rule a territory according to law. America has a democracy, where the citizens choose elected officials to represent them. laws are enacted to protect citizens. The federal government makes laws for the entire country to follow. The state governments make laws specific to states. The local government makes laws for counties, cities, or towns. All three work together to create a safe and productive society.
